Indian	0.0
Asian	0.1
Islander	0.0
Other	0.0
Two	0.3
Hispanic	94.4

## Summary

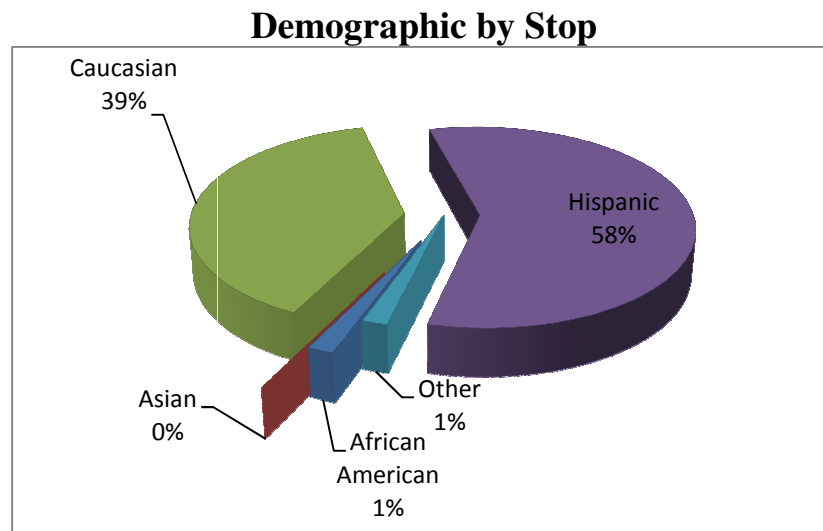

### Department's Analysis of the Data/Lessons Learned

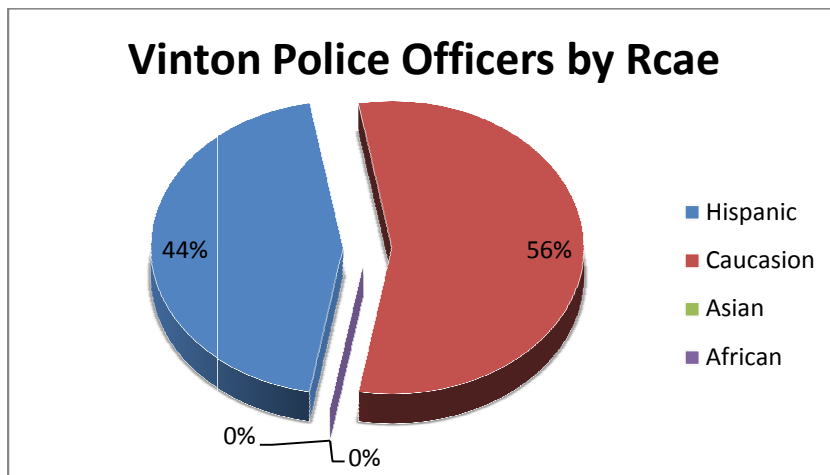

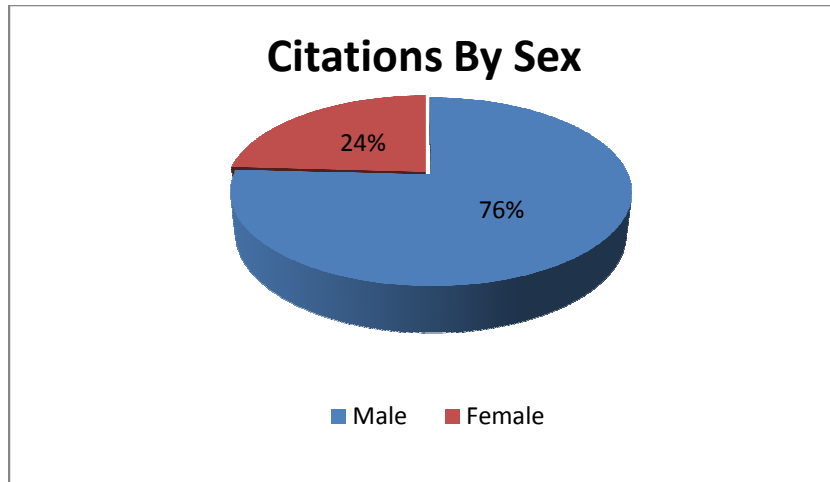

The data presented in this report contains information regarding police contacts with the public between January 1, 2013 and December 31, 2013. Despite its value, the raw data itself is subjective and does not present much information relevant to racial profiling trends.

Analysis of Racial Data at the very least is problematic. In comparing the data to census for our community and or to DPS data for licensed drivers in our community, both present unique challenges to any effort made at establishing a fair and accurate analysis. Census data contains information of all residents of a particular community, regardless of the fact they may or may not be among the driving population. DPS data is available sorted by zip code and 79821 contain driver information for persons living outside the Village of Vinton in communities including Westway, Anthony, Canutillo, and the unincorporated areas of El Paso County.

Of all the stops conducted by Vinton Police during 2013, Caucasians accounted for 39%, Hispanic accounted for 59%, African-Americans for <1%, Asians for 0% and the rest were classified as other (<1%).

There were **no** complaints of racial profiling received during the reporting period.

## Conclusion

The data collected and findings suggest that the Vinton Police Department does not currently experience a problem regarding racial profiling practices within the Village of Vinton. The continuing evolution and efforts of collecting racial data and contact data will enable an on-going evaluation of police practices within our community. Thus, allowing for citizens and visitors of the community to benefit from professional and courteous service from their Police Department.

Thank you,

Klaus W. Mansion, Chief  
Vinton Police Department
